Developer Tools :	GIT, Postman

SOFT SKILLS

Critical Thinking :	Problem-Solving, Analytical Thinking
Communication :	Language Proficiency in English, Hindi, Gujarati
Teamwork :	Collaboration, Leadership

PROJECTS

BuyNSellHub - Buy Smarter, Sell Faster

- Technologies used : **MongoDB, Express.js, ReactJS, Node.js**

- Designed and developed a web application for **our university's students** to resell their study products and materials. Used **OAuth2.0** for authentication. Wrote **REST APIs** for listing products. Students can **search products by category and by name**. Students(Buyer) can **make offers** via our application. And other students (Seller) can accept or reject offers. **Otp** is sent to the buyer for **verification**. Successful verification marks the product as sold. As a database I used **MongoDB** to store offers and listed products. (Source Code)

Event Management

- Technologies used : **MySQL Workbench, SpringBoot, ReactJS**

- The Event Management System is a software solution designed to streamline the organization, management and tracking of events, attendees and organizers. This system provides functionalities such as **adding, deleting, updating events; manage attendees and assign organizers to events.** (Source Code)

CERTIFICATION

- Udemy - The Complete 2024 Web Development Bootcamp (View Certificate)

- AWS Academy Graduate - AWS Academy Cloud Foundations (View Badge)

- AWS Academy Graduate - AWS Academy Machine Learning Foundations (View Badge)
